

Variable Speed Condensing Gas Furnace

Right for You

How can we say that Payne knows what's right for you? The answer is experience. D.W. Payne and sons started making the right products for their west coast customers back in 1914. Since that time, we've expanded nationwide with a brand that provides attractive, affordable products that work. These same principles apply to our family of deluxe condensing gas furnaces. Because this solid lineup of comfort equipment carries the Payne name, you can be sure it's the right product at the right price.

Warm Up with Payne

Everybody needs time to relax, to rejuvenate their minds and bodies. So when harsh, winter conditions outside drive you inside, it's always great to know that you can warm up with Payne. With an affordable and reliable Payne deluxe condensing gas furnace, you can look forward to the comfort of quiet operation, the economy of low utility bills and the freedom of minimal maintenance. Just set your thermostat, sit back and let Payne fill your home with warm, welcoming comfort.

The PG9UAA gas furnace offers our highest efficiency, an impressive 95% AFUE (Annual Fuel Utilization Efficiency). Like miles-per-gallon for a car, AFUE ratings allow customers to compare fuel efficiency of furnaces – the higher the number, the better the efficiency. This model enhances your comfort by drawing fresh outdoor combustion air into your home for diminished drafts and quieter operation.

Two Stages of Heating

The PG9UAA gas furnace also offers two-stage heating operation. This model runs on low stage in most conditions to keep indoor temperatures consistent while using less gas than single-stage furnaces. In extreme cold conditions, the furnace will automatically switch to high stage operation. This mode provides full furnace capacity, quickly supplying the warmth and comfort your family deserves.

Variable Speed Fan Efficiency

The PG9UAA gas furnace enhances your comfort with variable speed blower technology. The variable speed blower operates quietly and at a high electrical efficiency. Constant Fan mode allows indoor air to be continuously filtered and circulated, providing cleaner air and more consistent temperatures throughout your home. When paired with an air conditioner, during cooling season, it can even help reduce humidity levels in your home while delivering year-round economical comfort.

PAYNE

Payne is the Right Choice

Payne offers the right products at the right price, offering dependable, comfortable and efficient comfort season after season. So make the decision easy on yourself - choose Payne. When you do, you're choosing a long-standing history of indoor comfort products that are just right for you.

Our Warranty

All Payne furnaces are covered with a ten-year parts limited warranty. Warranty applies to original owner of properly registered product.* Visit payne.com for details. The heat exchangers are protected by a twenty-year limited parts warranty.

*Warranty period is 5 years if not registered within 90 days. Products sold in California and Quebec automatically receive a 10-year warranty.

What You Get With Payne

1 Efficiency and Comfort

Two-stage gas valve with two stages of heating operates up to 90% of the time on low-stage heating for smooth, efficient comfort. High stage operation provides a boost in comfort during more extreme winter conditions.

2 Energy-Saving Operation

Direct-drive variable speed blower motor provides airflow optimized for your home's needs. It delivers quiet, dependable heating and improved humidity control.

3 Extra Gas Efficiency

Our secondary heat exchanger extends heat transfer for higher efficiency use of heating fuel. It is protected by our patented coating for lasting corrosion resistance and durability.

4 Responsive Operation

Our advanced electronic control reliably and responsively activates system operation.

5 Quiet, Draft-Free Comfort

Our sealed combustion system virtually eliminates drafts and allows quiet operation by using outdoor air for combustion.

Your Total Comfort Connection with Payne

Air Conditioner and Gas Furnace System

A Payne deluxe condensing gas furnace provides welcome warmth during winter's blustery chill. Add a Payne central air conditioner and properly matched evaporator coil and you can count on cool, soothing relief from summer's heat as well. It's a total system solution for indoor comfort you can count on all year long.

Install Now, Pay Later with Payne Financing

If you're like many people, your need for comfort doesn't always match your immediate ability to pay for it. So Payne makes your life easier with 6 or 12 months of deferred interest, minimum monthly payment financing. If you pay it off within the promotional period, you pay no interest. Or, spread your payments over time with a reasonable finance charge. Either way, you can enjoy comfort now, when you need it. Credit provided by GE Money. For more details or to apply for Payne financing to receive pre-approval, go to www.Payne.com.
